

imagine stopping the progression of Alzheimer's

I have friends and loved ones suffering from Alzheimer's. But I can imagine... and hope for... a world without this terrible disease.

You can help make a difference. A major brain imaging study led by the **National Institutes of Health** may help us learn how to stop the progression of Alzheimer's.

Please consider joining the study if you are between 55 and 90 and:

- are in good general health with no memory problems, **OR**
- are in good general health but have memory problems or concerns, **OR**
- have a diagnosis of early Alzheimer's disease.

For more information, call 1-800-438-4380 or visit www.alzheimers.org/imagine.

stopping the progression of Alzheimer's disease
